Software Engineer

A strong conceptual thinker who has a keen interest in all things related to the software world. I have the ability and experience needed to design and execute complex software projects for a diverse variety of users. I am committed to having an impact on the future of any company that I work for, and possess the enthusiasm and commitment to learn and develop my career within a fast paced and growing business.

TECHNICAL PROFICIENCIES

Javascript(NodeJS, React), HTML5/CSS3/SASS, Python3(Flask/Django), CI/CD, Version Control, Caching, Docker, SQL, and NoSQL Databases, TDD, Agile development, Digital Ocean, and little of AWS, GCP, and Azure.

PROFESSIONAL EXPERIENCE

Software Engineer (june 2020 - present)

PickMeUp

- Worked as a UI/UX. I built user friendly user interfaces for the PickMeUp company. I built a nice admin dashboard with analytics charts and with google maps API integrated.
- Worked as Backend developer. I built a backend application using typescript. I used the microservice architecture and RabbitMq as a messaging broker.

Software Engineer (February 2020 - may 2020)

Datasystem limited, Nairobi, Kenya

Worked as a Full Stack Engineer (NodeJS/NestJs/React).

I was part of the team that initiated the creation of one of Data systems LTD e-commerce products.

Software Engineer(June 2019 - april 2020)

Andela, Kigali, Rwanda

Drive the development process of some of the internal tools for Andela and work with its external partners. Worked with, Nodejs, ReactJs and Typescript

Software Engineer (November 2018 - present)

Fiver

Works as a Freelancer. I build web applications for my clients using Python/Flask/Django, Node/Express Js/NestJs and React.

Other Contributions

1. **Contributor Custom React Pages.** I am one of the top contributors to custom react pages. An npm package for react applications that make pagination easy. ([Npm Link](#), [Github Link](#))
2. **nodejs-api-cli.** A scaffolding tool for making it easier to speed the development process/setting for NodeJs API application for different frameworks. ([Github link](#))
